Department of the Army

## Dr. Timothy L. White

Office of the Assistant Secretary of the Army for  
Acquisition, Logistics, and Technology  
Arlington, Virginia

Dr. Timothy L. White serves as the Manufacturing Technology (ManTech) & Technology Maturation Initiative (TMI) Program Deputy in the Office of the Deputy Assistant Secretary of the Army for Research & Technology (DASA R&T) where he provides oversight and execution for technology maturation and manufacturing efforts. As part of his responsibilities, he represents the Army interests for the Joint Capability Technology Demonstration (JCTD) program and serves as the Army Principal for the Joint Defense Manufacturing Technology Panel (JDMTP) on behalf of the DASA(R&T). Prior to serving as the ManTech & TMI Program Deputy, for 16 years, he worked at the DEVCOM Army Research Laboratory (ARL) as a Computer Scientist in support of the U.S. Warfighter. At ARL, his research focused on enhancing soldier lethality by investigating techniques to optimize the use of visual, auditory, and tactile displays to communicate critical information to dismounted Soldiers and thereby increase performance and situational awareness. Dr. White holds a Doctor of Philosophy degree in Psychology with an emphasis in Applied Experimental Human Factors from the University of Central Florida. He also holds a Master of Science and a Bachelor of Science degree both in Computer Science from Jackson State University.
