## Hydrogen Demonstration

21- 22 March 2023 | 1000-1500

DZ Cockatoo, MCB Quantico

Please join OUSD R-E and energy partners for a hydrogen demonstration, which will showcase various hydrogen S&T and R&D initiatives focused on addressing the energy challenges of emerging warfighting concepts.

- ⚡ Extend mission range and endurance
- ⚡ Give Commanders operational flexibility
- ⚡ Reduce sustainment requirements
- ⚡ Improve lethality, protection, and mobility
- ⚡ Adapt to and mitigate the impacts of climate change

*Developing power & energy solutions to meet the operational requirements of the current and future warfighter to achieve multi-domain dominance in the Contested Logistics Environment*
